

Skills Survey Questionnaire for Asylum Seekers

Dear Sir or Madam,

The Federal Employment Agency (*Bundesagentur für Arbeit*, BA) welcomes you to Germany.

As the public provider of employment services, our main task is to bring together job seekers or those looking to do a vocational training course and vacancies.

At the moment, the German labour market is looking for skilled workers who have completed vocational training or higher education. If you want to contribute your skills, we will be pleased to help you to get started in a job or a vocational training programme. We will also help you if you want to continue school education, vocational training or higher education studies in Germany.

As part of a project the BA will provide information, guidance, and - if required - support measures in order to prepare you for starting work or training as soon as possible. Participation in the project is voluntary.

If you wish to participate, we will need some personal details as well as information on your qualifications and work experience. For this, please fill out the questionnaire on the next page. The questionnaire will then be forwarded to the competent Employment Agency. On the basis of your skills profile, the Employment Agency will carry out an initial assessment of your prospects for finding a job or vocational training placement. In the event of a positive evaluation, the Employment Agency will contact you and arrange a personal appointment.

Please note: participation or non-participation in this BA project has no relation to your asylum application process and will in no way have a positive or negative impact on the outcome of the process. Questions of jurisdiction in relation to the completion of the asylum application process in the European Union (possible initiation of the so-called 'Dublin Process') also remain unaffected. Participating in the project will not have the effect of postponing or suspending any potential actions terminating residency following a negative outcome of the asylum application process.

We're looking forward to learning more about you.
Yours sincerely,

The Federal Employment Agency

The BA undertakes to comply with data protection regulations. Your data will only be collected, processed and used in the context of the statutory remit (Second Volume of the Social Code, Third Volume of the Social Code) for the purposes of potential analysis, guidance, placements as well as active employment promotion.

Data Protection Statement

I consent to the BA collecting, processing and using the data collected in the survey questionnaire in accordance with its statutory remit (Second Volume of the Social Code, Third Volume of the Social Code) and for research purposes. I also agree that prior to commencing placement measures in the labour market, the BA may obtain details from the Federal Office for Migration and Refugees regarding the position of the asylum application process for the purposes of determining the prospects for residency. This consent can be revoked at the competent Employment Agency at any time with effect for the future without giving any reason.
